The Giant Among Tires

Why Does Goodyear Tower So High Among a Hundred Others?

Last year we sold 1,479,883 Goodyear pleasure car tires alone-about one tire for every car in use.

Yet Goodyear has some hundred rivals. How came this tire to dominate like that?

Millions of Salesmen

Can there be any reason but this?

In the years before, we sent into service millions of Fortified Tires. And those tires, by their records, sold the tires of last year,

You know that. Perhaps you favor another tire. But you know in your heart that Goodyears, in some ways, must excel the rest.

Five Costly Ways

They do excel-in at least five ways, costly and important. Each is exclusive to Goodyear Fortified

These combat rimcutting, blowouts, loose treads. They combat insecurity,

punctures and skidding. These tires alone get our "On-Air" cure, which costs us \$450,000 yearly. They alone, for safety's sake, have 126 braided piano wires vulcanized into each tire

They alone have our All-Weather tread. Its toughness and thickness resist wear and puncture. And no other tread has such sharp, resistless grips.

Reductions Total 45%

Goodyear price reductions for two years total 45 per cent. The last big reduction was on February 1st. Three times in two years, as our cost came down, we cut the cost to you. Thus our matchless production always insures you most for your money in Goodyears.

Each year these tires grow better.

We keep scores of experts constantly working, seeking new ways to improve them.

Doesn't fairness to yourself suggest trying these tires? Any dealer will supply you.
